| Material Effect List | | | | | |
|---|---|---|---|---|---|
| SUS | SS400 | FC-200 | Al | Zn | Cu |
| ○ | ○ | ○ | △ | × | △ |
| ○ = No effect | | △ = Slightly affected | | × = Highly affected | |

## ADVANTAGES

It can be used easily and safely as it is free from irritation and poison. It does not hurt skin.

## DIRECTION FOR USE

1. For oil-stained parts on cabin, deck and engine room painting, wipe the stains off with waste or brush soaked with solutions of 150-200 grams of **Yunisol SP** per 18L water, or 300 grams for more dirty parts. It does not hurt the texture and luster of paints and does not require the washing with water.
2. For engine parts, immerse them in solution of 300 grams of **Yunisol SP** per 18L water or wipe them with soaked waste.
   Afrer that, rinse the parts in the solution of 100 grams of **Yunisol SP** per 18L water and dry up, and they do not get rust for a while.
3. **Yunisol SP** gets rid of odour of mineral, fry and fish oil so it is suitable for cleaning of oily plates and pans. The pans, spoons and stainless steel ware become shiny by this cleaning.
4. For oil-stained work-clothing and blanket, immerse these in the solution of 300 grams of **Yunisol SP** per 18L water for one night and rinse out in the water.
5. For waste and gloves, rinse out lightly in **Yunisol SP** solution and the stains will be removed simply and save waste because such matters are reused.
6. **Yunisol SP** is odorless, poisonless, stimulusless, unflamable and it never hurts skin. As mentioned above, **Yunisol SP** grows the ferric phosphate on metal surface and it prevents rust and makes cleaning easier next time.

## SAFETY AND HANDLING

① Use rubber gloves always, if possible at all.
② If it contacts with eyes, should be washed with fresh water immediately.
③ Do not change container to avoid risk of danger.
④ If contents need to be transfered use only designated containers.

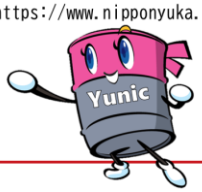

## CONTAINER

| | Wight,kg | Size, (WxDxH,cm) |
